

Dear Valued Patient,

I am writing to you at this time to share that **we will be a Compounding Only Pharmacy.** I would like to thank you for your years of support and confidence in our staff. **Porter's Pharmacy** has decided to discontinue our traditional retail pharmacy services. This decision has not been easy. We feel the best way for our staff to help patients and to be a viable business is to focus on our Compounding services.

We wanted to assure you that your traditional **retail** pharmacy records, and healthcare needs are in good hands. **That's why we have chosen Walgreens to continue your traditional retail pharmacy care.** I personally have worked as a pharmacist for Walgreens over twenty years ago. Walgreens is not a grocery store or big box retailer with many diverse non healthcare interests. Walgreens is a pharmacy focused healthcare company, and we're confident they'll provide you with excellent service and personalized care. Your retail pharmacy files will be at any Walgreens location. **The nearest Walgreens is located at 6906 University Boulevard in Moon, Pa 15108 Phone: 412-269-2501. Or you may also have your prescriptions filled in at any Walgreens Pharmacy.**

Traditional Compounding services will continue. Porter's Pharmacy & Compounding Lab is a PCAB Accredited Compounding Pharmacy that is very well qualified to meet and service your Compounding needs. Our new hours of operation are Monday through Friday 9am to 5pm. We will no longer be open on Saturdays. We will still be offering free shipping for most of our Compounded medications. If these hours are not convenient for you, please call us at 412-264-2230 and we can discuss other options to provide a great Compounding service to you.

For our traditional retail pharmacy patients, thank you very much for the opportunity and privilege to provide you and your family with traditional retail pharmacy services in the past. Please accept my sincere appreciation. Our goal is to make sure you have a seamless and comfortable transition to continue to access local reliable traditional retail pharmacy services.

Sincerely,

Eddie DeCaria R.Ph. FAPC and your friends at Porter's Pharmacy
